Founder of Pneumax*

Louise Hecker, PhD
*Associate Professor, Emory University
Founder and Chief Scientific Officer (CSO), Fibronox
Founder, Doc Hecker Designs
Founder, Regenerative Solutions*

PG#6:
Provides learning opportunity for academics interested in early-stage drug and technology development and commercialization

Attendees will discover real-life stories from experts on what works and doesn't work when the goal is to translate research findings into successful products/technologies. Topics will include start-up formation, intellectual property, preclinical drug and device development, IND-enabling studies, early-stage funding resources, business development, and more!

“PG6: JUMP START: A BEGINNER'S GUIDE TO DRUG/TECHNOLOGY AND COMPANY DEVELOPMENT IN AN ACADEMIC SETTING”

Thu, May 13, 8:00 am-4:00 pm
