

ATS ASSEMBLIES

The ASSEMBLY ON Microbiology, Tuberculosis & Pulmonary Infections

Welcome

to the American Thoracic Society (ATS) Assembly on Microbiology, Tuberculosis & Pulmonary Infections (MTPI).

The MTPI is dedicated to improving pulmonary health through promoting research, clinical practice and education in laboratory medicine, tuberculosis, other pulmonary infections, and host responses to these infections. There are many opportunities in the MTPI Assembly and we encourage your membership and participation.

Who are we, and what are our research interests?

Members of the MTPI Assembly are MD and PhD investigators and clinicians. MTPI members are recognized leaders across a broad spectrum of research and clinical areas related to pulmonary infection, including but not limited to:

- Diagnostic strategies for tuberculosis and other pulmonary infections
- Tuberculosis epidemiology
- Treatment of tuberculosis, MDR and XDR
- Pediatric tuberculosis
- Nontuberculous mycobacterium (NTM) pulmonary infections
- · Lung microbiobe
- · HIV-related lung disease
- Opportunistic pulmonary infection in non-HIV immunosuppression
- Lung immunology and host defenses to pulmonary infection
- · Pathologic mechanisms in pulmonary infection
- Community acquired respiratory infections
- Nosocomial respiratory infections
- · Bronchiectasis and chronic respiratory infection
- · Fungal, viral and bacterial pneumonia
- Environmental and genetic risk factors for pulmonary infection
- Genetics of lung infection

Why participate in the MTPI Assembly?

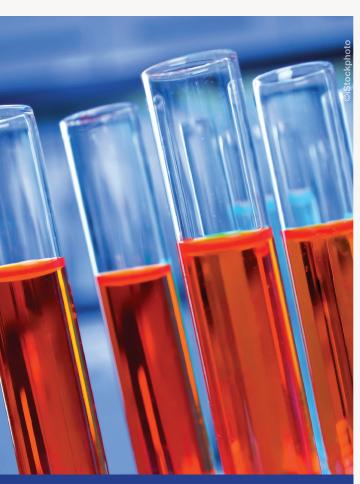

Assembly participation is the primary mechanism by which ATS member can become involved in the Society as a whole, and due to their size, Assemblies allow members to experience the ATS on a smaller and more manageable scale. In addition to facilitating interactions between ATS members with similar interests, the Assemblies are also responsible for the annual International Conference content and creating and updating ATS Statements and Position Papers. The following are some specific advantages for fellows, post-doctoral trainees, and junior faculty to actively participate in the MTPI:

- Provides a platform to impact the direction of the MTPI, pulmonary infection research and clinical practice.
- As a member of the MTPI, you will become acquainted with others in your field of research and clinical practice.

- These encounters will be important in forming the vibrant network which will stimulate your academic career, research and clinical goals.
- Discuss research ideas and collaborate with ATS members who share similar scientific and clinical interests, with opportunities to engage in projects which span across research disciplines, diseases, and training backgrounds.
- Opportunities to become more involved in the International Conference, such as chairing symposia or mini-symposia and facilitating thematic poster sessions or poster discussion sessions.
- Special opportunities for junior faculty, fellows and post-docs: to help facilitate sessions at the International Conference and to get involved with MTPI committee activities.
- Junior faculty, fellows and post-docs also have the opportunity to participate in the MTPI mentorship program in which they become mentees matched with more senior faculty mentors.

How to become involved in MTPI activities

- Update your ATS profile today: Go to http://www. thoracic.org/assemblies/mtpi/index.php and follow instructions on how to designate MTPI as either a primary or secondary assembly.
- Attend the annual MTPI membership meeting, as well as the pre-meeting reception for junior professionals and the post-meeting dinner, held on Monday at the ATS International Conference each year.
- Serve on one of the MTPI standing committees or working groups.
 - The Junior Membership Working Group is tasked with promoting membership and active participation in MTPI. Their special focus is to assist junior members in becoming more involved in MTPI activities.
 - The Program Committee's chief responsibility is to program the MTPI major scientific symposia, minisymposia, poster discussions, and thematic poster sessions for the annual International Conference.
 - The Planning Committee, whose main goal is to encourage, develop and foster long range projects for the MTPI Assembly. The Planning Committee develops and updates a number of TB and

How to become involved in MTPI activities

- Update your ATS profile today: Go to http://www. thoracic.org/assemblies/mtpi/index.php and follow instructions on how to designate MTPI as either a primary or secondary assembly.
- Attend the annual MTPI membership meeting, as well as the pre-meeting reception for junior professionals and the post-meeting dinner, held on Monday at the ATS International Conference each year.
- Serve on one of the MTPI standing committees or working groups.
 - The Junior Membership Working Group is tasked with promoting membership and active participation in MTPI. Their special focus is to assist junior members in becoming more involved in MTPI activities.
 - The Program Committee's chief responsibility is to program the MTPI major scientific symposia, minisymposia, poster discussions, and thematic poster sessions for the annual International Conference.
 - The Planning Committee, whose main goal is to encourage, develop and foster long range projects for the MTPI Assembly. The Planning Committee develops and updates a number of TB and

- pulmonary infections diagnosis and treatment guidelines, and also organizes an annual MTPI midlevel career award.
- The Nominating Committee identifies and nominates MTPI members to chair committees.
- The International Membership Working Group focuses on issues specific to our international members.
- The Web Committee continues to develop several exciting web-based programs including the clinical cases site, Maintenance of Certification webinars, and interactive surveys and links for participants.
- To get involved in one of the committees or with their related projects, please contact the respective committee chair directly. If you are a junior professional, please also contact the membership working group chair who can help facilitate your getting involved in committees and projects, based on your specific interests and skills. Contacts and email addresses for current committee chairs and members can be found at: http://www.thoracic.org/assemblies/mtpi/officersand-committees.php
- Submit proposals for MTPI Assembly Symposia,
 Sunrise Seminars and Post-Graduate Courses for the Annual International ATS Conference.
- Submit a case to the ATS Clinical Cases section. This is an excellent opportunity to publish a peer-reviewed pulmonary infection-related case, and submissions are welcomed from both faculty and fellows. Assistance with formatting and submission will be provided by the MTPI web committee.

Please direct all inquires to mtpi@thoracic.org
