The Vermont Lung Center at the University of Vermont Medical Center in Burlington, VT, USA is soliciting applications for several available postdoctoral slots, including Postdoctoral Fellow positions on our NHLBI-supported “Multidisciplinary Training in Lung Biology” T32 Institutional Training Grant.

Areas of investigation seeking applicants with MD or PhD degrees include:

Acute lung injury
Asthma, allergy, and infectious lung disease pathogenesis
Bioengineering
Cystic Fibrosis
Critical care nutrition (pharmacodynamics and mechanisms)
ICU communications
Lung cancer
Lung stem and progenitor cell biology
Mathematical modeling of pulmonary mechanics
Metabolic syndrome in asthma and acute lung injury
Microbial pathogenesis
Redox modulation of respiratory and immune function
Regenerative medicine
Unfolded protein response in lung disease pathogenesis

Please refer to our web site (www.med.uvm.edu/vermontlung) for information about potential mentors and research projects.

Interested applicants should submit a letter of inquiry and CV to Ms. Jean Hood at the Vermont Lung Center (jean.hood@uvm.edu) using subject line “VLC Postdoc”. Applications will be reviewed on a continuing basis.
