

# December 1 is World AIDS Day

In 2015, 1.1 million people died from AIDS.

AIDS is the number 1 cause of death for adolescents in Africa.

# HIV → TB

HIV infection is the strongest risk factor for progressing from latent to active TB.

Forum of  
International  
Respiratory  
Societies

[FIRSNET.ORG](http://FIRSNET.ORG)

The Forum for International Respiratory Societies is calling on governments, health advocates and NGO's to strengthen their response to HIV/AIDS.
