**Why should I get a COVID-19 booster?**

1. **Boosting helps protect against newer variants like Omicron**
2. **Everyone benefits from updated COVID-19 boosters...**
   - ✔️ Even for people who have had COVID already
   - ✔️ And even for people who already got boosted
3. **Boosters help protect people around us**

**The bottom line:** Boosters energize your immune system to improve protection against COVID-19. You should get boosted to protect yourself and those around you.

**When can I get a COVID-19 booster?**

It depends on your age and whether you have finished a full (“primary”) vaccine series. Find your age group in the graphic below. This graphic only applies to people that completed their primary series.

- **6 months-4 years**
  - Booster not yet available for this group
  - Did not receive Pfizer-BioNTech in primary series
  - Eligible for 1 original (monovalent) Pfizer-BioNTech booster. Immunocompromised kids: 3 months after primary series. Other kids: 5 months after primary series.

- **5-11 years**
  - Did not receive Pfizer-BioNTech in primary series
  - Received Pfizer-BioNTech in primary series
  - Eligible for 1 original (monovalent) Pfizer-BioNTech booster. Immunocompromised kids: 3 months after primary series. Other kids: 5 months after primary series.

- **12-17 years**
  - Eligible for 1 updated (bivalent) Pfizer-BioNTech booster, at least 2 months after most recent COVID-19 vaccine
  - Eligible for 1 updated (bivalent) Pfizer-BioNTech or Moderna booster, at least 2 months after most recent COVID-19 vaccine

- **18+ years**
  - Eligible for 1 updated (bivalent) Pfizer-BioNTech or Moderna booster, at least 2 months after most recent COVID-19 vaccine
