Message From the Assembly Chairperson
Kent E. Pinkerton, PhD

Welcome to the Spring Newsletter for the Environmental and Occupational Health Assembly of the American Thoracic Society. I look forward to seeing you all at the 2009 ATS International Conference in San Diego, CA May 15-20. We are a vibrant and growing assembly with 469 primary members and 749 secondary members. As an Assembly, we are leaders in addressing timely and highly relevant issues that cross many Assembly themes and are important to the American Thoracic Society. From 400 abstracts received under the purview of our Assembly, this year’s meeting will cover a rich breadth of topics found in our thematic, poster-discussion and mini-symposium sessions. On behalf of the Assembly, I wish to express our appreciation and thanks to Dr. Paul Henneberger and Dr. Fernando Holguin and their Program Committee of 34 members for the many long hours they have devoted to organize this year’s conference. Please check out EOH-sponsored sessions you can attend listed in this newsletter.

Our Assembly in Environmental and Occupational Health continues to lead the way in the publication of new ATS documents and official ATS proceedings. New projects now underway are highlighted by our Planning Committee directed by Dr. Stephanie London along with an enthusiastic group of committee members. The EOH Website Committee is headed by Dr. Kanta Devi Sircar and Dr. Philip Harber, who with the assistance of their committee, continue to increase the scope and numbers of clinical case studies on our website. Thanks also to the EOH International Committee headed by Dr. William Beckett and the Section on Terrorism and Inhalational Disasters, directed by Dr. Lewis Rubinson who continue to make an impact both in and out the American Thoracic Society with exciting programs and timely topics. Please consider also attending the TID business meeting at this year’s conference. Thanks also to the Nominating Committee and Dr. Marc Eisner for their efforts this year. Please review the nominations for offices we will vote on at this year’s business meeting.

The EOH Assembly Membership Meeting will be Monday, May 18th, 2009 from 4:30 p.m. - 6:30 p.m. at the Manchester Grand Hyatt Hotel in San Diego. Please plan to attend and take the opportunity to meet others with similar interests, to participate and learn about the latest Assembly activities and projects and to help build the future direction through expressing your ideas in our open forum and election process at the meeting.

It has been a true pleasure for me to serve as the Chair of the EOH Assembly these past two years. I look forward to the continued growth of our Assembly under the able leadership of Dr. Mark Eisner as the new chair of EOH. May we continue to carry on the mission of our assembly “to reduce the burden of respiratory illness from environmental and occupational exposures through research, patient care and education”.

INSIDE THIS ISSUE:
- Update from the EOH Program Committee
- EOH Assembly Sessions
- Update from the EOH Planning Committee
- EOH Nominating Committee
- Update from the EOH Section of TID
- Project Application for funding in FY2010!
- Public Advisory Roundtable
- Breathing Better with the ATS
- Fellows ATS Membership
- ATS Foundation
- EOH Membership Meeting
Update from the EOH Program Committee
Paul K. Henneberger, ScD, Program Chair, Fernando Holguin, Program Chair-Elect

The EOH Program Committee for the 2009 ATS Conference has worked hard to put together sessions that will appeal to all members of our assembly. From proposals submitted last summer, the committee selected 3 Sunrise Seminars, 3 Meet the Professor Seminars, and 4 Scientific Symposia for the 2009 Conference. In addition, Dr. Monica Kraft, Chair of the entire 2009 ATS International Conference Committee, asked EOH to compose a fifth Scientific Symposium entitled “Health and the Environment in a Globalized World.” Abstracts covering a wide range of topics were submitted to the EOH Assembly this past fall, and we grouped them into 5 Minisymposia, 5 Poster Discussion Sessions, and 11 Thematic Poster Sessions. New for this year are sessions with a focus on exposure assessment, including the Minisymposium “Assessing Exposures from Outer Space to the Lung” and the Meet the Professor Seminar “Exposure Assessment for Epidemiologic Studies.” Similar to last year, the 2009 EOH abstract-based sessions will have more chairs and facilitators than in past years. We think this strategy worked well at the 2008 conference, enriching the experience for both the presenters and the session leaders, and expect similar positive results at this year’s conference.

We want to thank the members of the 2009 EOH Program Committee for the time they devoted to reviewing proposals and abstracts. Also, we want to thank, in advance, all the presenters and session leaders in EOH who will help to make the 2009 ATS International Conference a success.

### Sunrise Seminar
**Sunday, May 17, 2009**

- **SS109** REAL-WORLD SPIROMETRY: TECHNIQUE AND EQUIPMENT PITFALLS THAT ELEVATE OR REDUCE RESULTS  
  Time: 7:00 AM - 8:00 AM

- **SS110** ASTHMA DIAGNOSIS IN OCCUPATIONAL DISEASES  
  Time: 7:00 AM - 8:00 AM

### Mini-Symposia
**Sunday, May 17, 2009**

- **A94** ASTHMA AS A SYSTEMIC DISEASE: THE ROLE OF CO-MORBIDITIES  
  Time: 1:30 PM - 4:00 PM

- **A95** MICROBES AND ORGANIC DUSTS AT WORK  
  Time: 1:30 PM - 4:00 PM

**Monday, May 18, 2009**

- **B94** GENE ENVIRONMENT INTERACTION INVOLVING OXIDATIVE STRESS AND INFLAMMATORY PATHWAYS IN ASTHMA AND CHRONIC OBSTRUCTIVE PULMONARY DISEASE  
  Time: 1:30 PM - 4:00 PM

- **B95** ASSESSING EXPOSURES FROM OUTER SPACE TO THE LUNG  
  Time: 1:30 PM - 4:00 PM

### Poster Discussion Sessions
**Sunday, May 17, 2009**

- **A25** EVIDENCE FROM HUMAN STUDIES ON THE CARDIOVASCULAR EFFECTS OF AIR POLLUTION  
  Time: 8:15 AM - 10:45 AM

**Monday, May 18, 2009**

- **B23** THE MECHANISMS AND HEALTH EFFECTS OF OZONE  
  Time: 8:15 AM - 10:45 AM

**Tuesday, May 19, 2009**

- **C24** EVALUATING DISEASE CONTROL AND QUALITY OF LIFE IN ASTHMA AND CHRONIC OBSTRUCTIVE PULMONARY DISEASE  
  Time: 8:15 AM - 10:45 AM

- **C105** NANOMATERIALS: LITTLE PARTICLES, BIG IMPACT  
  Time: 1:30 PM - 4:00 PM

**Wednesday, May 20, 2009**

- **D25** THE ROLE OF DIET, FAT, AND BODY MASS INDEX IN RESPIRATORY DISEASE  
  Time: 8:15 AM - 10:45 AM

### Thematic Poster Sessions
**Sunday, May 17, 2009**

- **A43** STRATEGIES FOR IDENTIFYING HARMFUL AGENTS, REDUCING EXPOSURES, AND PREVENTING DISEASE  
  Time: 8:15 AM - 4:00 PM

- **A44** OCCUPATIONAL AIRWAY AND SKIN DISEASES  
  Time: 8:15 AM - 4:00 PM
Update from the EOH Planning Committee
Stephanie London, MD, Planning Chair

The Planning Committee for EOH is responsible for encouraging applications for project funding from ATS and then reviewing applications proposals. The committee members for the current year are:

Stephanie London, MD (Planning Committee Chair)   Maritta S. Jaakkola, MD
Kent E. Pinkerton, PhD (Assembly Chair)           Catherine Lemiere, MD
Juan C. Celedon, MD                               Carrie A. Redlich, MD, MPH
Rafael E. De La Hoz, MD, MPH, MSc                 Debra J. Romberger, MD
Mark D. Eisner, MD                                Isabelle Romieu, MD, DSc, MPH
Terry Gordon, PhD                                  Torben Sigsgaard, MD, PhD
Amund Gulsvik, MD, PhD                            Akshay Sood, MD, MPH
Philip I. Harber, MD, MPH                          Susan M. Tarlo, MBBS
David N. Weissman, MD                             

The EOH Planning Committee had a productive year. We met for breakfast at the 2008 ATS meeting and had a conference call in the summer. A key function of the Planning Committee’s role is to encourage the development of ATS EOH Assembly Statements and Position Papers that typically ensue from ATS-funded assembly projects. EOH members did well in competing for ATS FY 2009 project funds.

(Continued on page 5)
Update from the EOH Planning Committee
Stephanie London, MD, Planning Chair

(Continued from page 4)
The following ongoing projects were renewed:

- Diagnosis and Management of Beryllium Sensitization and Chronic Beryllium Disease. Chair: John Balmes, MD (jbalmes@medsfgh.ucsf.edu), FY2009 funding: $4,416
  Project summary: The goal of this project, jointly supported by the ATS, the U.S. Department of Energy (DOE), and the CDC / NIOSH, is to establish consensus among a panel of international experts regarding criteria for the diagnosis, clinical evaluation, management and prevention of beryllium sensitization (BeS) and chronic beryllium disease (CBD). The consensus findings and recommendations will be published as an ATS Policy statement. A working meeting is planned in conjunction with the 2009 ATS Conference.

- Work-Exacerbated Asthma Chair: Paul Henneberger, ScD (pkh0@cdc.gov), FY2009 funding $3,400
  Project summary: The goal of this ATS Project, supported by the ATS and the CDC / NIOSH, is to review and synthesize the literature on work-exacerbated asthma (WEA), identify research and clinical needs, and increase awareness of WEA. An ATS Public Policy Statement addressing these issues is being submitted this year.

- Novel risk factors and the global burden of non-smoking COPD. Chair: Mark Eisner, MD (mark.eisner@ucsf.edu). FY2009 funding $6,222
  Project summary: The goal of this project is to develop an ATS statement that will evaluate the contribution of non-traditional risk factors (other than smoking) to the development of COPD, including environmental tobacco smoke, occupation, biomass fuel combustion, air pollution, and genetic and dietary factors. The draft statement has been completed and submitted to the ATS Documents Editor for peer review.

- Spirometry in the Occupational Setting. Co-Chairs: Susan M. Tarlo, MB, BS (susan.tarlo@utoronto.ca) and Carrie A. Redlich, MD, MPH (carrie.redlich@yale.edu). FY2009 funding: $7,797

The following NEW projects were funded:

  Project summary: The specific aim of the project is to update the 1996 ATS Statement on Respiratory Protection to one that is accurate, relevant, and contemporary. The first objective is to update portions of the 1996 statement that are now out of date, including terminology and regulations. The second objective is to expand background information about relevant technical issues such as types of respirators, methods available for fit testing, determination of respirator cartridge end of life, respirator reuse and respirator disposal criteria. The third objective is to systematically examine the evidence for several issues of current interest, such as: effectiveness of respirators in preventing specific types of respiratory disease in occupational settings; effectiveness of respirators in specific subgroups of users (e.g., children, pregnant women); effectiveness of respirators when used by the general public; and best methods for fit testing.

- Respiratory Impairment and Disability. Chair: Philip Harber (pharber@mednet.ucla.edu), FY2009 funding: $14,384
  Project summary: In United States, the AMA Guidelines for the Assessment of Permanent Impairment ("The Guides") are widely used
Update from the EOH Planning Committee  
Stephanie London, MD, Planning Chair

As the Chair of the EOH Nominating Committee, I would like to thank Drs. Maritta Jaakkola and David Mannino for their expertise and service this year. Our committee was charged with selecting candidates for the Nominating Committee and Program Chair Elect. We have recruited a distinguished slate of nominees for these positions and will look forward to the election at the EOH Assembly Meeting in San Diego this spring.

The Section on Terrorism and Inhalational Disasters (TID) Executive Committee continues to develop programmatic sessions, projects, and communications methods to encourage inter-member collaboration. We encourage you to get involved with the Section during the business meeting at the Annual Conference and throughout the year. We hope you will attend the session entitled, “Acute and Long Term Respiratory Consequences of Inhalational Injury” which is scheduled for May 19th from 1:30 to 4:00 PM during the upcoming conference in San Diego. Information on how to be nominated for and elected to the Executive Committee will be forthcoming.

Lewis Rubinson, MD, PhD, the Section chairperson and Christian Sandrock, the Section co-chair are investigating the possibility for austere-resource pulmonary and clinical care experiences for trained Section members. Also, Lewis is working with Asha Devereaux, MD, MPH, an executive committee member, on a project which will address oxygen needs during disasters. This nascent effort involves an informal network of collaborators from ACCP and AARC as well as several non-affiliated disaster experts. We hope to have more details to report about these activities in the upcoming months. In addition, LTC Alexander Niven, MD (MC USA), the TID web director, is spearheading the expansion of the website to meet the communications priorities put forth by the Section members at last year’s business meetings. The identified major priority was to establish a forum for posting relevant research opportunities as well as outstanding new manuscripts and policy white papers. We hope to have this as a functional capability before the San Diego conference commences.

Eleanor Summerhill, MD, a member of the executive committee, is leading development of high quality programmatic sessions which will be submitted for consideration for the 2010 conference. Please contact her at eleanor_summerhill_md@brown.edu if you have well-developed ideas for a symposium or other type of session. Also, please feel free to reach out to Lewis Rubinson at rubinson@u.washington.edu or Christian Sandrock at cesandrock@ucdavis.edu for any general Section issues.

EOH Nominating Committee  
Mark D. Eisner, MD, Nominating Chair

As the Chair of the EOH Nominating Committee, I would like to thank Drs. Maritta Jaakkola and David Mannino for their expertise and service this year. Our committee was charged with selecting candidates for the Nominating Committee and Program Chair Elect. We have recruited a distinguished slate of nominees for these positions and will look forward to the election at the EOH Assembly Meeting in San Diego this spring.

Lewis Rubinson, MD, PhD, Chair

EOH Nominating Committee  
Mark D. Eisner, MD, Nominating Chair

As the Chair of the EOH Nominating Committee, I would like to thank Drs. Maritta Jaakkola and David Mannino for their expertise and service this year. Our committee was charged with selecting candidates for the Nominating Committee and Program Chair Elect. We have recruited a distinguished slate of nominees for these positions and will look forward to the election at the EOH Assembly Meeting in San Diego this spring.
Please consider submitting an Assembly/Committee Project Application for funding in FY2010!

This year we will once again use an Online Application Process using an electronic grants submission site called proposalCENTRAL. All interested applicants must submit their Assembly/Committee Project Applications online through proposalCENTRAL. To avoid being rushed at deadline time, applicants are encouraged to register and complete a professional profile at proposalCENTRAL as early as possible.

There will be a link to proposalCENTRAL on the ATS homepage at www.thoracic.org along with comprehensive instructions that have been designed to correspond with the fields in the online application. Please consider submitting an online application for an Assembly/Committee project. If you have a suggestion for a project application and you need assistance, please contact your Assembly Planning Committee chair Stephanie London at london2@niehs.nih.gov.

Please contact Miriam Rodriguez with any questions at tel: 212/315-8639 or email: mrodriguez@thoracic.org.

Patients to Speak at Fifteen Designated ATS International Conference Symposia

The ATS Public Advisory Roundtable (ATS PAR) has selected patients to provide a patient perspective at fifteen symposia at the 2009 ATS International Conference Symposia. This concept has worked exceptionally well within the format of the PAR Symposium for the last seven years as well as at an increasing number of sessions at ATS International Conferences from 2004 to 2008.

This is the sixth year that patient speakers will participate within the Assemblies’ Symposia. The patients will make a five-minute presentation to offer insight into their personal journeys. This insight will address diagnosis, treatment, and how the disease has dramatically altered their lifestyle, family, career and relationships. They will share their perspective into what patients would like physicians and researchers to know about physician/patient relationships and the importance and relevance of the work in which investigators and researchers are engaged.

The symposia at which a patient perspective will be presented are listed below:

ATS PAR Symposium

The ATS Public Advisory Roundtable (PAR) is pleased to announce the eighth ATS PAR Symposium to be presented at the ATS International Conference in San Diego on Sunday, May 17, 2009 1:30 p.m. – 4:00 p.m.. The topic of the symposium is “Lung Fibrosis” and it will be jointly chaired by David H. Ingbar, M.D. and Donna J. Appell, RN. The program includes the following:

- New Molecular Targets In Pulmonary Fibrosis - P.B. Bitterman, M.D., Minneapolis, MN
- Patient's Perspective - TBD
- Lessons From Pulmonary Fibrosis In Hermansky Pudlak Syndrome NHGRI - B.R. Gochuico, M.D., Bethesda, MD
- Genomics And Pulmonary Fibrosis - J.E. Loyd, M.D., Nashville, TN
- Molecular Diagnostics And Biomarkers In IPF - N. Kaminski, M.D., Pittsburgh, PA
- Where Are We With Clinical Trials In IPF? - TBD
- Novel Treatments For Pulmonary Fibrosis: Stem Cells And All That Jazz - L.A. Ortiz, M.D., Pittsburgh, PA
- Wrap-Up Interactive Discussion - D.H. Ingbar, M.D., Minneapolis, MN

The ATS PAR Annual Poster Session will be open from Sunday, May 17 – Tuesday, May 19 2009 in the Exhibit Hall of the San Diego Convention Centre. Public Interest Organizations (PIO’s) concerned with lung and sleep disorders will present information about their organizations. A representative from each organization will be present at the poster session to provide additional information.
ATS Public Advisory Roundtable’s Third Annual

*Breathing Better with the ATS Forum*

This is a forum at which patients will have the unique opportunity to network and learn more about their disease. This year the panelists will focus on oxygen management and quality of life issues.

**Panel Includes:**
- Patrick Strollo, MD
- Sam Giordano, MBA, RRT, FAARC
- Rell Trey Schwab

If you have any patients in the San Diego area, please encourage them to attend. They will have an opportunity to hear from and network with other patients and experts in the pulmonary community.

**May 16, 2009, 1:00 p.m. – 4:00 p.m.**

The Manchester Grand Hyatt Hotel located at One Market Place, San Diego, CA

RSVP by: April 30th, 2009 by emailing cwhite@thoracic.org or call Courtney L. White at (212) 315-8640

---

**Fellows Get First Year of ATS Membership for Free!**

ATS is offering a free year of ATS membership to all first-year pulmonology, critical care, sleep fellows and post-doctoral PhD fellows! This special program is intended to welcome fellows to the ATS community. The Society would like these junior entrants to the fields of respiratory medicine to take advantage of the benefits of membership and look to ATS as their professional home for post graduate and continuing medical education, networking on a global scale, and for helping them to serve the needs of patients and the public at large.

Today’s fellows will be the research and clinical professionals who will achieve the next major advancement in the science and treatment of pulmonary disease, critical illness and sleep disorders critical to advancing science and practice of the fields.

To learn more about this program, send an e-mail to fellows@thoracic.org or visit the ATS Web site at www.thoracic.org and click “Free Year for Fellows” under the Membership drop down menu. Program directors are encouraged to share this information with their fellows and other colleagues.
ATS Foundation to Host Inaugural Benefit Dinner for the ATS Research Program at ATS 2009 in San Diego

The Board of Trustees of the Foundation of the American Thoracic Society invites you to attend our Inaugural Gala Dinner benefiting the ATS Research Program on Saturday, May 16, 2009 in San Diego, California. The evening will begin with a reception at 7:00 p.m. followed by dinner at 7:45 PM. The event will be held at the Manchester Grand Hyatt on the Fourth Level in the Randle Ballroom. During the dinner, we will recognize ATS Research Program awardees and honor the recipients of the 2009 Breathing for Life Award. Please join us! Please register early as seating is limited.

To register for the conference and reception/dinner go to: http://foundation.thoracic.org/web/ats-research-program-dinner.html or call (212) 315-6822 for more information.

ENVIRONMENTAL AND OCCUPATIONAL HEALTH ASSEMBLY MEMBERSHIP MEETING

MONDAY MAY 18TH 4:30-6:30 PM
MANCHESTER GRAND HYATT SAN DIEGO
DOUGLAS PAVILION D (GROUND LEVEL)
