Baseline dependent minimally important differences for clinical outcomes of pulmonary rehabilitation in people with COPD.

Pulmonary telerehabilitation vs. conventional pulmonary rehabilitation - a secondary responder analysis.

Pulmonary rehabilitation improves sleep efficiency measured by actigraphy in poorly sleeping COPD patients.

Development of a Pulmonary Rehabilitation Patient Decision Aid for Patients with Chronic Obstructive Pulmonary Disease: Mixed Methods Study.

Implementation and maintenance of an enhanced pulmonary rehabilitation program in a single centre: An implementation study.

Measuring Adherence to Pulmonary Rehabilitation: A Prospective Validation Study of the Dutch Version of the Rehabilitation Adherence Measure for Athletic Training (RAdMAT-NL).
Ricke E, Lindeboom R, Dijkstra A, Bakker EW.

Functional status following pulmonary rehabilitation in people with ECOPD: A systematic review and meta-analysis.

Patsaki I, Avgeri V, Rigoulia T, Zekis T, Koumantakis GA, Grammatopoulou E.

**EXERCISE TESTING AND TRAINING**

Dynamic Ventilatory Reserve During Incremental Exercise: Reference Values and Clinical Validation in COPD.

Longitudinal significance of six-minute walk test in patients with nontuberculous mycobacterial pulmonary disease: an observational study.

Feasibility of a Home-Based Cognitive-Physical Exercise Program in Patients With Chronic Obstructive Pulmonary Disease: Protocol for a Feasibility and Pilot Randomized Controlled Trial.
High Prevalence of Non-Responders Based on Quadriceps Force after Pulmonary Rehabilitation in COPD.
Desachy M, Alexandre F, Varay A, Molinier V, Four E, Charbonnel L, Héraud N.

Stair-Climbing Tests or Self-Reported Functional Capacity for Preoperative Pulmonary Risk Assessment in Patients with Known or Suspected COPD-A Prospective Observational Study.
Dankert A, Neumann-Schirmbeck B, Dohrmann T, Plümer L, Wünsch VA, Sasu PB, Sehner S, Zöllner C, Petzoldt M.

Prognostic value of the post-exercise heart rate recovery and BHDE-index in chronic obstructive pulmonary disease.
Chen SY, Huang CK, Wu CL, Peng HC, Yu CJ, Chien JY.

Effectiveness of mind-body exercises in chronic respiratory diseases: an overview of systematic reviews with meta-analyses.
Heredia-Rizo AM, Martinez-Calderon J, Piña-Pozo F, González-García P, García-Muñoz C.

Handgrip Strength in Lung Transplant Candidates and Recipients.
Polastri M, Dell’Amore A, Reed RM, Pehlivan E.

Impaired Skeletal Muscle in Patients with Stable Chronic Obstructive Pulmonary Disease (COPD) Compared with Non-COPD Patients.
Wu ZY, Lu XM, Liu R, Han YX, Qian HY, Zhao Q, Niu M.

Prognostic Value of Pace Variability, a Novel 6MWT-Derived Feature, in Patients with Chronic Obstructive Pulmonary Disease.
Huang CT, Ruan SY, Lai F, Chien JY, Yu CJ.
A Comparative Study of Dynamic Lung Hyperinflation and Tidal Volume to Total Lung Capacity Ratios during Exercise in Patients with Chronic Respiratory Disease and Healthy Individuals.
Chuang ML.

The impact of sport on the physical, psychological and social wellbeing of people with chronic breathlessness: A mixed-methods systematic review.

Investigation of Factors Affecting Shuttle Walking Performance at Increased Speed for Patients with Chronic Obstructive Pulmonary Disease.
Çiftçi R, Kurtoğlu A, Eken Ö, Durmaz D, Eler S, Eler N, Aldhahi ML.

The Impact of Exercise Training and Supplemental Oxygen on Peripheral Muscles in COPD: A Randomized Controlled Trial.

Systemic Inflammation but not Oxidative Stress Is Associated with Physical Performance in Moderate Chronic Obstructive Pulmonary Disease.

Value of cardiopulmonary exercise testing in the assessment of symptoms and quality of life in Asian patients with chronic obstructive pulmonary disease.
Lee B, Oh YM, Lee SW, Lee SD, Lee JS.

The short- and long-term effects of lower limb endurance training on outpatients with chronic obstructive pulmonary disease.
Chung AC, Chang CJ, Liu JF, Hung MS, Fang TP, Lin HL.
Effects of multimodal exercise program on postural balance in patients with chronic obstructive pulmonary disease: study protocol for a randomized controlled trial. 
Daros Dos Santos T, Pasqualoto AS, Cardoso DM, Da Cruz IBM, Moresco RN, Ferreira da Silva A, Martins de Albuquerque I. 

Adding Non-Invasive Positive Pressure Ventilation to Supplemental Oxygen During Exercise Training in Severe Chronic Obstructive Pulmonary Disease: A Randomized Controlled Study. 
Deniz S, Tuncel Ş, Gürgün A, Elmas F. 

Exploration of the minimal clinically important difference value of the 3-min simulated pedal motion in patients with chronic obstructive pulmonary disease: A self-controlled prospective clinical trial. 

Exercise Performance of Lowlanders with Chronic Obstructive Pulmonary Disease Acutely Exposed to 2048 m: A Randomized Cross-Over Trial. 

The Non-Paced 3-Minute Sit-to-Stand Test: Feasibility and Clinical Relevance for Pulmonary Rehabilitation Assessment. 
Ernst R, Bouteleux B, Malhouitre M, Grassion L, Zysman M, Henrot P, Delorme M. 

The Effectiveness of Home-Based Inspiratory Muscle Training on Small Airway Function and Disease-Associated Symptoms in Patients with Chronic Obstructive Pulmonary Disease. 
Chang W, Lin HC, Liu HE, Han CY, Chang PJ. 

Tai Chi as a complementary exercise for pulmonary rehabilitation in chronic obstructive pulmonary disease: A randomised controlled trial.

**PHYSICAL ACTIVITY**

**Physical Activity Estimated by the Wearable Device in Lung Disease Patients: Exploratory Analyses of Prospective Observational Study.**

**Neural Network Approach to Investigating the Importance of Test Items for Predicting Physical Activity in Chronic Obstructive Pulmonary Disease.**

**Association between regular moderate-to-vigorous physical activity initiation after COPD diagnosis and mortality: an emulated target trial using nationwide cohort data.**

**Prolonged bouts of sedentary behavior in people with chronic obstructive pulmonary disease and associated factors.**

**Views and experiences of healthcare practitioners supporting people with COPD who have used activity monitors: "More than just steps".**

**Effect of Data Reduction Techniques on Daily Moderate to Vigorous Physical Activity Collected with ActiGraph® in People with COPD.**

**TELEMEDICINE**

*
*Composed in collaboration with Dr. Vitalii Poberezhets (Chair of Group 01.04 - m-Health/e-health)

**Technological features of smartphone apps for physical activity promotion in patients with COPD: A systematic review.**

**Patient Perceptions of a Virtual Reality-Based System for Pulmonary Rehabilitation: A Qualitative Analysis.**

**Is the internet a sufficient source of information on sarcoidosis?**

**Preference for and Impact of Telehealth vs. In-person Asthma Visits Among Black and Latinx Adults.**

**Home Telemonitoring Program in Individuals with COPD During the Coronavirus Disease 2019 Pandemic: A Pilot Study.**

**A smartphone-based application for cough counting in patients with acute asthma exacerbation.**
Experiences With In-Person and Virtual Health Care Services for People With Chronic Obstructive Pulmonary Disease: Qualitative Study.
Krag T, Jørgensen EH, Phanareth K, Kayser L.

Exploring the Perspectives and Experiences of Older Adults With Asthma and Chronic Obstructive Pulmonary Disease Toward Mobile Health: Qualitative Study.
Kouri A, Gupta S, Straus SE, Sale JEM.

Value of Information Analysis of a Web-Based Self-Management Intervention for Chronic Obstructive Pulmonary Disease.
Robinson SA, Moy ML, Ney JP.

PATIENT REPORTED OUTCOME MEASURES

Dyspnea-induced Limitation (DYSLIM), a new self-administered concise questionnaire to evaluate dyspnea-related activity limitation in chronic respiratory diseases.

Comparison of Predictive Properties between Tools of Patient-Reported Outcomes: Risk Prediction for Three Future Events in Subjects with COPD.
Nishimura K, Kusunose M, Sanda R, Mori M, Shibayama A, Nakayasu K.

Validity and Reliability of the Turkish Version of the Nijmegen Questionnaire in Asthma.

Assessment of Five Questionnaires for Chronic Obstructive Pulmonary Disease in a Southern Italian Population: A Proof-of-Concept Study.
Dragonieri S, Galloway S, Quaranta VN, Portacci A, Vulpi MR, Santomasi C, Caringella A, Carpagnano GE.
The Intention of Inhaled Medication Adherence Scale (IMAS): The Development of a New Instrument for Assessing Inhaled Medication Adherence Among Patients with Chronic Obstructive Pulmonary Disease (COPD) Using Theory of Planned Behavior.
Wang YH, Yang TM, Hung MS, Lin YC, Fang TP, Kuo TT, Griffiths MD, Lin CY.

The Conceptual Independence of Health Status, Respiratory Symptoms and Dyspnea in Chronic Obstructive Pulmonary Disease in Real Clinical Practice.
Nishimura K, Kusunose M, Mori M, Shibayama A, Nakayasu K.

Validation of the Generalized Anxiety Disorder-7 in patients with COPD: a cross-sectional study.

Health-related Quality of Life in Alpha-1 Antitrypsin Deficiency-associated COPD.
Choate R, Holm KE, Sandhaus RA, Mannino DM, Strange C.

Cultural adaptation and validation of the Brazilian Portuguese version of the PROactive Physical Activity in COPD-clinical visit instrument for individuals with COPD.

Predictors of Quality-of-Life Improvement at Different Minimum Clinically Important Difference Values in Patients with Chronic Obstructive Pulmonary Disease after Climatic Rehabilitation Treatment.
Kubincová A, Takáč P, Demjanovič Kendrová L, Joppa P.

INTERSTITIAL LUNG DISEASE

Re-hospitalisation predicts poor prognosis after acute exacerbation of interstitial lung disease.
Salonen J, Jansa S, Vähänikkilä H, Kaarneaho R.
Usefulness of a new parameter in functional assessment in patients with idiopathic pulmonary fibrosis: desaturation - distance ratio from the six-minute walk test.

Role of sleep questionnaires in predicting obstructive sleep apnea amongst interstitial lung diseases patients.

Physical activity measurements in individuals with interstitial lung disease: a systematic review and meta-analysis.

Changes in patient-reported outcomes in patients with non-idiopathic pulmonary fibrosis fibrotic interstitial lung disease and progressive pulmonary fibrosis.

Effects of walking with a portable oxygen concentrator on muscle oxygenation while performing normal or pursed-lip breathing in patients with interstitial lung disease: a randomized crossover trial.

Automated O2 Titration Alone or With High-Flow Nasal Cannula During Walking Exercise in Chronic Lung Diseases.
Home-Based Physiotherapy and Rehabilitation in Patients with Idiopathic Pulmonary Fibrosis: A Review.
Çelik M, Pehlivan E.

Interstitial Lung Disease and Sarcoidosis.
Sharp M, Mustafa AM, Farah N, Bonham CA.

Effect of Ambulatory Oxygen on the Respiratory Pattern during the 6 Min Walking Test in Patients with Interstitial Lung Diseases.
Ventura V, Viani M, Bianchi F, d'Alessandro M, Sestini P, Bargagli E.

Herberts MB, Teague TT, Thao V, Sangaralingham LR, Henk HJ, Hovde KT, Dempsey TM, Limper AH.

Grant-Orser A, Min B, Elmrayed S, Podolanczuk AJ, Johannson KA.

The Impact of Integrated Palliative Care on Survival in Idiopathic Pulmonary Fibrosis: A Retrospective Multicenter Comparison.

Supplemental Oxygen Therapy in Interstitial Lung Disease: A Narrative Review.
Clark KP, Degenholtz HB, Lindell KO, Kass DJ.

Influence of home-based pulmonary rehabilitation program among people with interstitial lung disease: A pre-post study.
Amin R, Vaishali K, Maiya GA, Mohapatra AK, Acharya V, Lakshmi RV.
Cohort study to evaluate prognostic factors in idiopathic pulmonary fibrosis patients introduced to oxygen therapy.

Lung function trajectories in patients with idiopathic pulmonary fibrosis.

Comparison of high-intensity interval training versus moderate-intensity continuous training in pulmonary rehabilitation for interstitial lung disease: a randomised controlled pilot feasibility trial.
Nikoletou D, Chis Ster I, Lech CY, MacNaughton IS, Chua F, Aul R, Jones PW.

Barriers to and facilitators of the use of oxygen therapy in people living with an interstitial lung disease: a systematic review of qualitative evidence.
Tikellis G, Hoffman M, Mellerick C, Burge AT, Holland AE.

A remote monitoring-enabled home exercise prescription for patients with interstitial lung disease at risk for exercise-induced desaturation.

Systemic Determinants of Exercise Intolerance in Patients With Fibrotic Interstitial Lung Disease and Severely Impaired DLCO.
Decline in forced vital capacity as a surrogate for mortality in patients with pulmonary fibrosis.

**ASTHMA**

**DISPOSITION OF WORK-RELATED ASTHMA IN A SPANISH ASTHMA COHORT: COMPARISON OF ASThma SEVERITY BETWEEN EMPLOYED AND RETIRED WORKERS.**
Romero-Mesones C, Cruz MJ, Alobid I, Barroso B, Arismendi E, Barranco P, Betancor D,
Valverde-Monge M, Munoz X.

**Assessment of the Current Practice of Managing Depression in Patients with Asthma in Saudi Arabia: Physicians’ Views.**

Alahmari MA.

**Lifestyles and the risk of an asthma attack in adult asthma patients: a cross-sectional study using NHANES database.**
Guo X, Huang S, Luo Q, Lin H.

**Characterization of Obesity in Severe Asthma in the German Asthma Net.**
Bal C, Pohl W, Milger K, Skowasch D, Schulz C, Gappa M, Koerner-Rettberg C, Jandl M,

**Age-related differences in associations between uncontrolled asthma, comorbidities and biomarkers in adult-onset asthma.**
Warm K, Hedman L, Stridsman C, Lindberg A, Rönmark E, Backman H.

Reliability and validity of the London Chest Activity of Daily Living scale for adults with asthma.

Home-based pulmonary rehabilitation for adults with severe asthma exposed to psychosocial chronic stressors.

Can Pharmacists' Counseling Improve the Use of Inhalers and Quality of Life? A Prospective "Pre" and "Post" Education Analysis in Mardan, Pakistan.

Enabling adults with severe asthma to exercise: a qualitative examination of the challenges for patients and healthcare professionals.

Development and Dynamic Responsiveness of the Acute Asthma Exacerbation Survey in Patients with Moderate to Severe Disease.

Percent Recovery Index Predicts Poor Asthma Control and Exacerbation in Adults.

Personalised management and supporting individuals to live with their asthma in a primary care setting.

Non-Pharmacological Treatments of Asthma Chronic Obstructive Pulmonary Disease Overlap and Rehabilitation Programs.

Electronic monitoring with a digital smart spacer to support personalized inhaler use education in patients with asthma: The randomized controlled OUTERSPACE trial.

Effect of exercise intervention on lung function in asthmatic adults: a network meta-analysis.

Impact of asthma in Europe: A comparison of web search data in 21 European countries.

A Systematic Review of Patient-Reported Adherence Measures in Asthma: Which Questionnaire Is Most Useful in Clinical Practice?

Chronic comorbid conditions and asthma exacerbation occurrence in a general population sample.
Dynamic hyperinflation in patients with severe asthma compared to healthy adults.
Dolmage TE, Majd S, Bradding P, Singh SJ, Green RH, Evans RA.

Effect of exercise intervention on lung function in asthmatic adults: a network meta-analysis.
Xing S, Feng S, Zeng D.

The effect of a nurse-led home visit program on the care burden of caregivers of adults with asthma: A randomized controlled trial.
Şanlıtürk D, Ayaz-Alkaya S.

Asthma and Cardiovascular Diseases: Uncovering Common Ground in Risk Factors and Pathogenesis.
Aggarwal K, Bansal V, Mahmood R, Kanagala SG, Jain R.

Phenotyping asthma with airflow obstruction in middle-aged and older adults: a CADSET clinical research collaboration.

Anxiety in adults with asthma during the coronavirus disease 2019 pandemic: a Canadian perspective.

Health-related quality of life, anxiety, depression, beliefs of medication and self-efficacy in individuals with severe asthma - a population-based study.
Rönnebjerg L, Axelsson M, Kankaanranta H, Ekerljung L. 

Severe asthma trajectories in adults: findings from the NORDSTAR cohort.
A cross-sectional study to evaluate utility measure and health-related quality of life (HRQoL) among patients with severe uncontrolled asthma in Spain.

**NUTRITION AND NUTRITIONAL STATUS**

Differential impacts between fat mass index and fat-free mass index on patients with COPD.

Association between appendicular lean mass and chronic obstructive pulmonary disease: epidemiological cross-sectional study and bidirectional Mendelian randomization analysis.

Correlation of Body Mass Index and Oxygen Saturation in Chronic Obstructive Pulmonary Disease Patients at a Tertiary Care Center in Nepal: A Cross-Sectional Study.

Lower geriatric nutritional risk index is associated with a higher risk of all-cause mortality in patients with chronic obstructive pulmonary disease: a cohort study from the National Health and Nutrition Examination Survey 2013-2018.

Body Composition, Physical Function and Exercise Capacity in Chronic Obstructive Pulmonary Disease.

The clinical characteristics and treatment response of patients with chronic obstructive pulmonary disease with low body mass index.

Efficacy of interventions to alter measures of fat-free mass in people with COPD: a systematic review and meta-analysis.
Jenkins AR, Gaynor-Sodeifi K, Lewthwaite H, Triandafilou J, Belo LF, de Oliveira MF, Jensen D.

Interaction of BMI and respiratory status in obstructive sleep apnea, a cross-sectional COPD study.

The association of vitamin K status with lung function and disease in a general population.
Jespersen T, Kampmann FB, Dantoft TM, Jørgensen NR, Kårhus LL, Madsen F, Linneberg A, Thysen SM.

Improving Dyspnea by Targeting Weight Loss in Patients with Chronic Obstructive Lung Disease and Severe Obesity Through Health Coaching and Remote Monitoring.
Benzo MV, Barwise A, Clark MM, Dupuy-McCauley K, Roy M, Benzo RP.

Role of nutrition in patients with coexisting chronic obstructive pulmonary disease and sarcopenia.

Long-Term Clinical Outcomes of Patients with Chronic Obstructive Pulmonary Disease with Sarcopenia.
Effectiveness of the integration of a palliative care team in the follow-up of patients with advanced chronic obstructive pulmonary disease: The home obstructive lung disease study.

Stakeholders' Perspectives on the Quality of End-of-Life Health Care Services for Chronic Obstructive Airways Disease: A Focus Group Study.

Palliative care in COPD and ILD: a call for action.

Palliative care among lung cancer patients with and without COPD: A population-based cohort study.

Home ventilation for patients with end-stage chronic obstructive pulmonary disease.

Risk Factors for Depression in Patients with Chronic Obstructive Pulmonary Disease.
Assessment of Cardiac Dysfunction in Patients With Chronic Obstructive Pulmonary Disease (COPD): A Cross-Sectional Study.
Mohammed RA, Mohamed LA, Abdelsalam EM, Maghraby HM, Elkenany NM, Nabawi OE, Sultan I.

Prevalence and clinical impact of anemia in patients diagnosed with chronic obstructive pulmonary disease: A cross-sectional study.
Rimal S, Das SK, Basnet A, Rauniyar TP, Pandey KR, Kuikel S.

Pulmonary hypertension in interstitial lung disease and in chronic obstructive pulmonary disease: different entities?
Piccari L, Aguilar-Colindres R, Rodríguez-Chiaradía DA.

Sleep and cardiometabolic comorbidities in the obstructive sleep apnoea-COPD overlap syndrome: data from the European Sleep Apnoea Database.

Management of Pulmonary Hypertension Associated with Chronic Lung Disease.

Analysis of the Comorbid Course of Chronic Obstructive Pulmonary Disease.
Kotlyarov S.

Cardiovascular Disease and Chronic Obstructive Pulmonary Disease: Adding a Third Dimension to the ABE Global Initiative for Chronic Obstructive Lung Disease 2023 Chronic Obstructive Pulmonary Disease Classification.
Kostikas K, Gogali A, Hillas G.
Smoking cessation after diagnosis of COPD is associated with lower all-cause and cause-specific mortality: a nationwide population-based cohort study of South Korean men.
Doo JH, Kim SM, Park YJ, Kim KH, Oh YH, Kim JS, Park SM. 

Patients' acceptance of outcome and experience measurements during hospitalisation for COPD exacerbations: a CICERO Clinical Research Collaboration-European Lung Foundation online patient survey.

Prognostic value of early warning scores in patients presenting to the emergency department with exacerbation of COPD.
Doğan NÖ, Özturan İU, Pekdemir M, Yaka E, Yılmaz S. 

Performance-based outcome measures to assess functionality in hospitalised patients with COPD exacerbations: a systematic review of the measurement properties.
Leonardi NT, Kawakami DMO, Hurst JR, Cruz J, Mendes RG. 

Breathlessness and exercise performance to predict mortality in long-term oxygen therapy - The population-based DISCOVERY study.

Development of a Communication Tool between Patients and Physicians for Recognizing COPD Exacerbations in Japan.
Prognostic value of the post-exercise heart rate recovery and BHDE-index in chronic obstructive pulmonary disease.
Chen SY, Huang CK, Wu CL, Peng HC, Yu CJ, Chien JY.

Lung Function Trajectories and Associated Mortality Among Adults with and without Airway Obstruction.

Clinicians' Perspectives of Wearable Technology to Detect and Monitor Exacerbations of Chronic Obstructive Pulmonary Disease: Mixed-Method Survey.

Unleashing the Power of Very Small Data to Predict Acute Exacerbations of Chronic Obstructive Pulmonary Disease.
Jacobson PK, Lind L, Persson HL.

Acceptability, Appropriateness and Feasibility of a Nurse-Led Integrated Care Intervention for Patients with Severe Exacerbation of COPD from the Healthcare Professional's Perspective - A Mixed Method Study.

The Exacerbation of Chronic Obstructive Pulmonary Disease: Which Symptom is Most Important to Monitor?
Jacobson PK, Lind L, Persson HL.

Facilitators and Barriers of Adherence to Multi-Disease Exacerbation Action Plans in COPD Patients - A Qualitative Study.

Causes of and Clinical Features Associated with Death in Tobacco Cigarette Users by Lung Function Impairment.

Exacerbations in Chronic Obstructive Pulmonary Disease: Clinical, Genetic, and Mycobiome Risk Factors.
Matsumoto K, Read N, Philip KEJ, Allinson JP.

The Clinical Characteristics and Outcomes in Non-Frequent Exacerbation Patients with Chronic Obstructive Pulmonary Disease in the Chinese Population.

Hospital Admission Rates in Patients with COPD Throughout the COVID-19 Pandemic.
Andreen N, Westin J, Vanfleteren LEGW.

Re-exacerbation within 30 days of discharge is associated with poor prognosis in the following year among patients hospitalised with exacerbation of chronic obstructive pulmonary disease: a clinical cohort study.

Predictors of Length of Stay, Mortality and Rehospitalization in COPD Patients: A Retrospective Cohort Study.
Lüthi-Corridori G, Boesing M, Ottensarendt N, Leuppi-Taegtmeyer AB, Schuetz P, Leuppi JD.

COVID-19
*Composed in collaboration with Dr. Vitalii Poberezhets (Chair of Group 01.04 - m-Health/e-health)
The acceptance and hesitancy of COVID-19 vaccination among chronic obstructive pulmonary disease (COPD) patients.
Wang T, Bai Y, Bai L, Wang N.

Impact of high-intensity interval training on cardiac structure and function after COVID-19: an investigator-blinded randomized controlled trial.

Intranasal steroid use and COVID-19 mortality among asthma and COPD patients: A retrospective cohort study.
