David Mummy

david.mummy@duke.edu

**David Mummy** recently completed a doctorate in Biomedical Engineering from the University of Wisconsin – Madison and is now a post-doc in the Driehuys lab at Duke University. His research focus is on applications of CT and hyperpolarized gas MRI to better understand structure-function relationships in asthma, COPD, and fibrotic lung disease. He is a proponent of using social media to foster scientific collaboration and outreach, and can be found on Twitter at @DavidMummy.

*If you or someone you know would like to join the RSF Web Committee, please email Jade Jaffar (j.jaffar@alfred.org.au)*
