

# ATS Respiratory Structure and Function Assembly

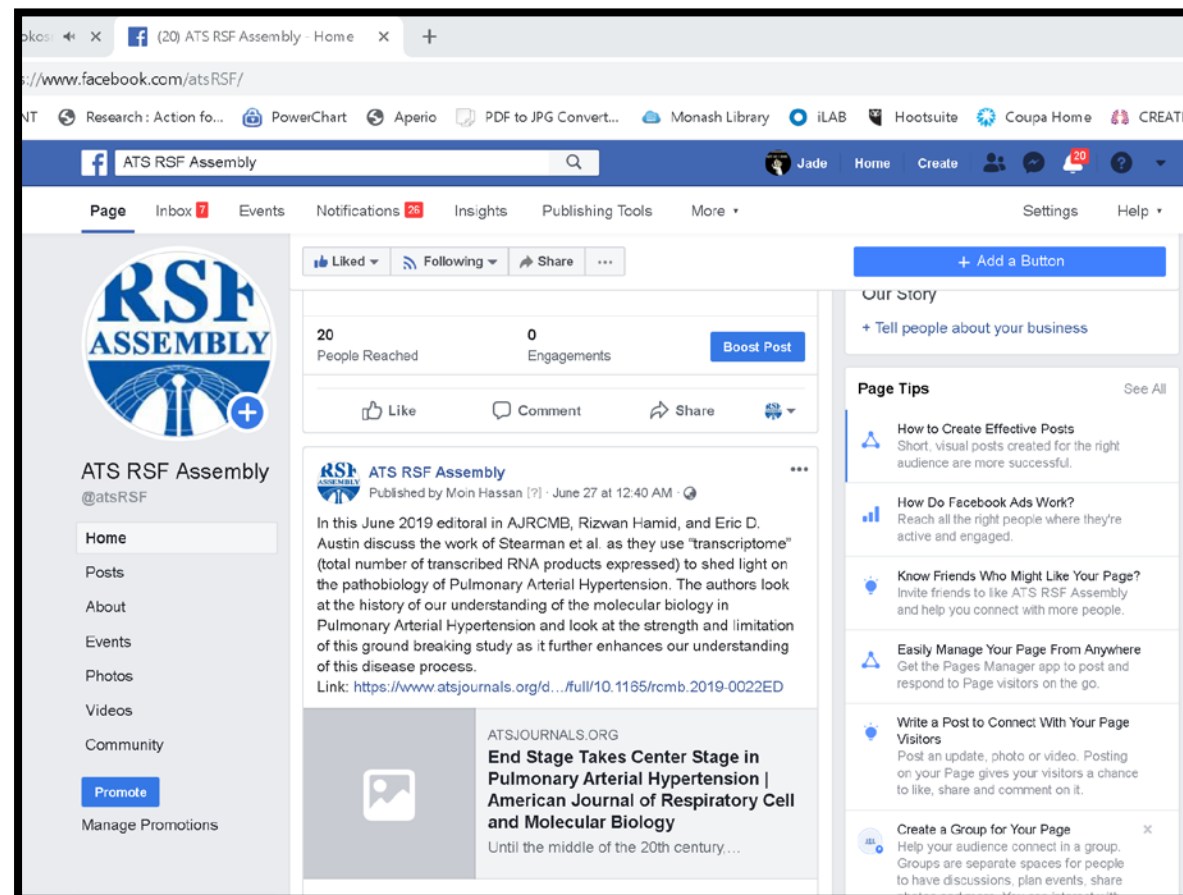

## 2019 – 2020 Web Committee

ATS Journal  
Summaries  
Moin Hassan

moinhs1@gmail.com

**Moin Hassan** just graduated from an Internal Medicine Residency at NSMC / Salem Hospital and am starting as a Sleep Medicine fellow at Brigham and Women's Hospital (BWH). I plan to also pursue a pulmonary critical care fellowship next year. I have been working with the BWH pulmonary vascular group on a number of projects assessing the potential of 3D vascular reconstructions derived from CTA's as an imaging biomarker of pulmonary vascular disease. I was fortunate enough to recently receive The Academic Sleep Pulmonary Integrated REsearch/Clinical (ASPIRE) Fellowship at ATS through which I hope to integrate clinical medicine, physiology, and genetics in large multicenter observational studies to elucidate the physiological and genetic causes and the cardiovascular consequences of pulmonary hypertension in OSA.

If you or someone you know would like to join the RSF Web Committee, please email Jade Jaffar ([j.jaffar@alfred.org.au](mailto:j.jaffar@alfred.org.au))
