

Please join us for the **Section on Genetics & Genomics (SGG) Membership Meeting** at the ATS International Conference in San Francisco, CA.

SGG Chair: Ann Chen Wu, MD, MPH & Co-Chair: Ivana Yang, PhD

**FEATURING A SPECIAL PRESENTATION BY
Ryan Hernandez, PhD**

Director, Biological and Medical Informatics Graduate Program
co-Director, PROPEL Training Program
Department of Bioengineering and Therapeutic Sciences
University of California, San Francisco

The Hernandez Lab studies patterns of genetic variation from populations around the world using large scale sequencing data. We use population genetic modeling to understand how the evolutionary forces experienced by diverse populations have influenced the genetic architecture of complex traits.

Time: Sunday, May 15th 12:00pm-2:00pm

Location: Moscone Convention Center
