

# 2023 Road Map for Medical Educators

 **ATS 2023** May 19 – 24

Welcome

# Welcome to ATS 2023!

Welcome to the 2023 American Thoracic Society International Conference in Washington, DC! Another in-person conference is exciting and, of course, somewhat unnerving, as we continue to navigate the impacts of COVID-19 on our lives (and the greatly increased rate of flight changes & cancellations). I am looking forward to seeing many good friends again and making new connections, despite the anxiety and disruptions that come with travel.

The Section on Medical Education has created this Road Map for Educators to highlight events of particular interest for those of us who consider teaching, curriculum development, educational program leadership and educational research major elements of our careers. We encourage you to attend these events, along with the many other sessions focused on the latest developments within your scientific or clinical areas of interest. Be sure to stop by the Center for Career Development, a space to relax and network with like-minded clinicians, where you can also find programming devoted to the interests of educators.

The ATS Section on Medical Education (SOME) was established in 2015. It now has over 3000 members and provides great opportunities to network and collaborate with a community of professionals who share similar aspirations and are navigating many of the same challenges often faced by educators. If you want to get more involved with the Section, come to our membership meeting on Sunday May 21st at 11:45am in the Renaissance Hotel, Rockcreek Ballroom A. At this meeting, we will welcome the new members of the SOME Executive Committee, including Dr. Jeremy Richards, the in-coming chair of the Section on Medical Education.

In addition to programming at the International Conference, SoME offers webinars throughout the year, and supports a mentorship program, awards program, medical education research grant, and many other career development opportunities. Contact one of us if you have ideas for a webinar, symposium, or other programming or projects related to training and education. Beyond this annual meeting, the ATS SoME is your professional home for a career in medical, nursing, or science education.

Regardless of whether you engage with SoME or with an ATS Assembly in your area of clinical interest, the important message is to get involved! The ATS is a forum through which you can connect to leaders in our field from around the world, enriching both your personal and professional satisfaction long after you have returned home from this annual meeting. Again, welcome to ATS 2023 and we look forward to seeing you there!

MTE57 GO TEAM! Applying Team Science Principles For Effective Interprofessional Leadership	11:00 a.m. - 12:00 p.m.	Marriott Marquis Washington, Chinatown (Level M3)

# TEACH

A networking event from the  
Section on Medical Education

Monday, May 22, 2023,  
4:00 - 5:00 p.m.

Location: Hall D,  
Near Networking Super Center

*Collaborate, educate, connect, and learn.*

Sunday, May 21 –Tuesday, May 24  
7 a.m. – 5 p.m. ET  
Hall D (Level 2).

New for 2023: The Networking Super Center is open to all attendees!

All times listed are Eastern Time.

Stop by the Learning Studios for specialized programming, studio talks and panel discussions, hosted by SIC, CCD, and the Clinicians Center. Participate in networking opportunities with early, mid-career professionals and emerging and leading experts in the fields of Pulmonary, Critical Care and Sleep medicine. Discuss core principles of networking, career assistance, education, and social opportunities. In addition, there will be opportunities to listen to different perspectives on how to tackle common problems across the globe.

For more information about sessions below visit:
